

Huynh Huu Phuoc – Frontend Fresher

Phone: 0377798924 / Email: fuocy.huynh@gmail.com

Github: <https://github.com/fuocy>

EDUCATION

Information Technology

Trường Đại học Khoa học Tự nhiên - Đại học Quốc gia TP.HCM (2020)

TECHNICAL SKILLS

Programming Languages: Javascript & Typescript

Frameworks/Platforms:

- HTML, CSS/SASS, Javascript
- ReactJS, NextJS, TailwindCSS
- Firebase, Redux, ReactQuery

English: Toeic Test (2 skills): 740

Soft skills: Eager to learn new things (currently learning NodeJS).

PROJECTS

1. Moonlight Films

Demo: <https://moonlight-films.vercel.app/>

Github: <https://github.com/fuocy/moonlight-films>

Technologies used: ReactJS, Typescript, TailwindCSS, ReduxToolkit, ReactQuery, Firebase

Features:

- Home-page, Detail-page, and Watching-page: are well-designed.
- Explore-page: allowing to Sort, Filter by many different fields, using search params.
- Search-page: search by film name with suggestion keyword shown up, allowing to filter results by type.
- Login-page: Allowing authentication either by signing up a new account or using Google/Facebook provider. Sign up form is fully validated.
- Bookmark-page and History-page: store favorite films and recently watched films, allowing to edit films list (with Select All and Clear button).
- Profile-page: allowing to change profile image, name, email, and password, verify email, and delete account after re-authentication.

- Comment-feature: Not only being able to comment, users also can give a 'reaction', see who did react to a comment (sort and filter out the 3 most popular reactions like that of Facebook), allowing user to reply, edit, delete, hide, sort by latest/popular and load more comments.
- Skeleton loading, infinite scrolling, query-based pagination, and smooth animation.

2. Lighthouse Shop

Demo: <https://lighthouse-shop.vercel.app/>

Github: <https://github.com/fuocy/lighthouse-shop>

Technologies used: NextJS, Typescript, TailwindCSS, ReduxToolkit, Zustand, MongoDB, Firebase

Features:

- Beautiful UI
- Searching, sorting and filtering at once
- Bookmark favourite products
- Authentication with Firebase, validation with Formik
- Comment after login
- Similar products and recently viewed products
